

Next stop on the ABCs tour of Wyoming's geologic wonders ...

Killepecker Sand Dunes

*Interpreting the past,
providing for the future*

www.wsgs.wyo.gov

- *Located in the Red Desert, southern Wyoming*
- *A formation of sand dunes & vast sand sheets caused by wind*
- *Nearly 50 miles long & up to 10 miles wide*
- *Second largest active sand dune field worldwide*

*Photos by: WSGS geologists
