

A. F. Hagner, 1942

17200

Casper Chromite - Sec. 16, ¹⁷²⁰⁰Twp. 32 N., Range 79 W.

A zero line has been run E-W and there are 14 (W) N-S trenches, one every 100'. The trenches vary from 300' to 500' and are all fairly shally - up to a few ft. Also, there are 9 trenches E of the 0 - a total of 24 trenches.

The outcrops run E. and W. and they vary in the grade. There appears to be a considerable quantity of ore - high and low grade. All will have to be mined.

MR42-3

Casper Chronicle. S 16, 17 & 20, T 32 N R 79 W

15-50-42 A gro. line has been run E-W and there are 14 (W)

N-S trenches, one every 100'. The trenches vary from 300' to 500' and are all fairly shallow - up to a few ft. Also, there are 9 trenches E of the C - a total of 24 trenches.

The water is run E and W and they vary in the grade. There appears to be a considerable quantity of gravel & fine sand. All will leave to the owner.
